ABOUT SCAN Journal of Biodiversity, Agriculture and Climate Action (JoBACA)

SCAN is dedicated to advancing the understanding of climate issues and its intersectionality with other contemporary sectors. We encourage submissions that contribute to multi-disciplinary research, providing innovative solutions and insights into the challenges posed by climate change. Researchers, scholars, and practitioners are invited to submit manuscripts for publication in our biannual journal.

Our Mission

JoBACA Journal is posed towards publication of high impact factor research papers that significantly contribute to enhancement of sustainable development and climate smart management practices

OUR VISION

To be a globally accepted and distinguished Journal of Biodiversity, Agriculture and Climate Action

Why Publish with SCAN?

- ❖ Our robust and efficient peer review process ensures timely feedback and decisions on submitted manuscripts.
- ❖ Accepted papers are published swiftly, ensuring your research reaches the audience promptly
- ❖ Gain widespread visibility through our digital platform, ensuring your research is accessible to a global audience
- ❖ We offer competitive and affordable publication fees, making it accessible for researchers from various backgrounds.
- ❖ Upholding the highest standards of academic integrity, our blind peer review process ensures unbiased and constructive feedback.
- ❖ We welcome diverse perspectives and research approaches, fostering a comprehensive understanding of climate action.

Instruction to Authors

Manuscripts must be prepared in Microsoft word file, maximum of 25pages, type-written in English, double spaced on A4 (210X297mm) paper using normal margins and Times New Roman of 12 font size except the Title.

Manuscripts should be arranged in the following manner:

All subheadings must be aligned left and only first letter capitalised

Title. The title should be concise but informative. First Letter capitalized (Font size 14).

Author(s). The names of authors (surname followed by initials) and their affiliation should follow the title (Centred). The email address and mobile phone number of the corresponding author must be included.

Abstract. The abstract must be italicised and should not be more than 250 words. It should cover the objectives, methodology, major findings, conclusion and one key recommendation.

Keywords. List not more than five keywords immediately after the abstract for indexing purpose.

Body of the paper. The paper should be divided into the following sections, namely, Introduction (statement of problem and objectives inclusive), Methodology, Results and Discussions, Conclusion and Recommendations, Acknowledgements (if any) and References. Please, note that no other subheadings are allowed in the body.

- The first letter of each word in the section heading should be capitalized.
- Tables must be numbered with a title written above the table and typed in exact text location.
- References must follow American Psychological Association (APA) Style (latest edition).

Submission Guidelines

We accept only original research articles, review papers and case studies. All submissions should be original, unpublished, and not under consideration for publication elsewhere.

All manuscripts should be submitted to: scanjournal.bioagriclimate@gmail.com; Please use 'NEW SUBMISSION' as the email subject for a fresh submission, but when returning a revised copy after review, use REVISED VERSION' as the Email subject.
